WARNING: Do not use the Snap-Shim Cleat mounting screws with any previous models of Speedplay X cleats including the Slim Line Cleat. The Snap-Shim Cleat mounting screw heads are too small and may pull through the older base plates. This may cause the cleat to pull off the shoe causing a fall that may result in severe injury.

4-Hole Carbon Fiber Soles: Must use the Carbon Sole Protector Kit (Part #15292), sold separately and available from Speedplay, to prevent contact between the pedal body and the carbon fiber sole. Carbon fiber is a poor wear surface and unless a wear protector is used, damage to both the pedals and shoes will result.
